

January 2020

Rescue Partners

The Fox Valley Animal Welfare League opened its Low-Cost Clinic in February 2012 nearly 8 years ago. It was and is our goal to provide services low cost services to animals in need.

We offered this service to Licensed Rescue Groups in an effort to help local shelters and rescue groups with their care of animals at a significantly reduced rate so that the savings could be used for other resources within their program.

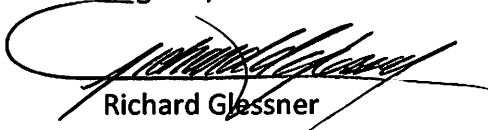

Over the last eight years we have consistently maintained the same price without increasing any cost to the rescue groups while the price of everything required to provide this service has continued to increase each year.

It has gotten to the point where we are actually losing money on some of the surgeries that we perform and as such we are adjusting our prices to meet our current operating cost in today's economy.

Attached you will find information related to the programs and services that we provide and the pricing structures that will go into effect January 1st, 2020.

If you have any questions you may direct them to either Ellen or myself.
