Pet Information

Name _____

Dog

Age or Birthdate _____

Cat

Color _____

Male

Breed _____

Female

Any injuries/prior or current medical conditions? Yes No

If Yes, explain:

Surgical Anesthetic Consent Waiver

It is important to understand the risk of surgery as well as anesthesia. Although extremely low, the risk of death is always present, just as it is for humans that undergo surgical anesthesia.

The Fox Valley Animal Welfare League employs well experienced licensed veterinarians in addition to using the highest quality materials for every procedure performed.

As the owner or agent of this animal, I authorize the Fox Valley Animal Welfare League to perform the dental procedure as scheduled. I authorize the veterinarian to administer any treatment that may be deemed medically necessary during the course of the procedure.

I release and indemnify all Fox Valley Animal Welfare League employees, volunteers, and agents from all liability.

I understand that the veterinarian maintains the right to refuse to perform the dental procedure if the animal is deemed a health risk.

NO Food or Water after Midnight the night before surgery
We open at 7:30 - Drop off between 7:30 and 9:00 am
Pick up between 4:00 and 4:30 pm - * Late Fees after 4:30 *
Complete Pre-Surgical Instructions found at fvawl.org

Anti-Vomiting medication IS required for any dental procedure (\$1 per pound of body weight)

Blood Panels are required for any animal 5 years of age or older.

- \$50 = PreOp (10 Chemistry Panel & CBC)
- \$75 = Basic (17 Chemistry Panel & CBC)
- \$125 = Full (17 Chemistry & CBC, Lytes, SDMA, T4)

Dental Waiver

I understand that this dental procedure is considered preventative care and that major dental work, including complex extractions, are NOT considered preventative care. The dental procedure/cleaning fee is \$250, this is the starting cost, any necessary extractions are in addition to this.

I understand that the standard of care requires x-rays for dental work outside the normal cleaning procedure and that the Fox Valley Animal Welfare League does not provide this service.

I understand that if there are loose teeth present that need to be removed as a simple extraction, that this service will be performed. The fee for this is \$10 for every tooth removed.

I understand if there are teeth that need to be surgically removed, that the surgeon may use their discretion to remove them without the presence of x-rays. The fee for this is \$30 for every tooth surgically removed. Those teeth that are determined to pose additional risk without the presence of x-rays will not be removed and will need to be referred to a specialist as complications can occur including retained roots and/or jaw fracture.

I understand that extractions are not an optional choice in performing dental procedures. Rotting teeth and severe dental disease cannot be taken care of with a simple cleaning.

I understand that this procedure is considered preventative care and if major complications are found, the veterinarian will diagnose and recommend treatment options for any services that cannot be performed while under our care.

Signature represents understanding/consent of forms content
